

## Mobile Banking Text/SMS Commands

Thank you for choosing Bremer Mobile Banking. After enabling Mobile Banking on your account – through Online Banking or via our Mobile Banking app – you can start using Text Banking. Simply text any of the command codes below to our shortcode **79680**. Contact Bremer Phone Bank at 800-908-BANK (2265) for additional support with Mobile and Online Banking.

### To receive a text message with balance information

If you are looking for a summary of balances for all available accounts, text the command code **B** to the shortcode. You can also use the command code **BAL**.

For a balance associated with a specific account, text the command code **B acctnumber** to the shortcode, replacing *acctnumber* with your actual account number.

### To receive a summary of recent transactions

If you are looking for a summary of recent transactions – with most recent transactions first - for all available accounts, text the command code **H** to the shortcode. You can also use the command code **HIST**.

For a list of transactions for a specific account, text the command code **H acctnumber** to the shortcode, replacing *acctnumber* with your actual account number.

### To view additional messages

If there are additional messages available from an initial command request, use the command code **M** or **MORE** or **NEXT** to display the next message.

### For help accessing Mobile Web

Text **L** or **Login** to the shortcode to receive a text message containing the URL for our Mobile Web version of Mobile Banking. Alternately, you may open your browser to visit [mobile.bremer.com](http://mobile.bremer.com) directly.

If you use an iPhone or Android device, download our Mobile App for the best mobile banking experience, including the ability to deposit checks from your device. The app is free from both App Store and Google Play.

### For help with Text Banking

To access available Help content, simply text any of the following command codes to the shortcode: **HE** or **HELP** or **INFO**. For a quick listing of available Text Banking commands, you can send the command code **C** or **CMD**.

If your device's history was recently cleared and you need to re-activate Text Banking, simply text **R** or **REQUEST ACTIVATION** to the shortcode.

### To cancel Text Banking and alerts

To cancel Text Banking, text **S** or **STOP** to the shortcode. To disable Mobile Banking on your account(s) entirely, log in to Online Banking to manage your mobile banking settings.
