

Remote Deposit: Check Testing Request

To successfully process through Remote Deposit, check items must adhere to standard MICR character placement and other specifications. If you find an item is rejecting but are unsure of the reason, please complete this form to request a Bremer Bank review of the item. Our team will analyze the item to determine why it is rejecting and provide advice in correcting the issue.

Please note that some common reasons that a check may not successfully process or repair include:

- Canadian or foreign items (these are not negotiable through U.S. check image clearing systems).
- Poor or missing MICR ink.
- Misplaced or non-standard MICR character placement.

Request Details

Business Name	
Business Online Banking Company ID	
Deposit Account #	
Contact Name	
Contact Phone / Email	
Deposit Method <i>Please indicate if you have been able to successfully deposit the check but still wish for us to research.</i>	n/a – Not deposited Deposited via Remote Deposit Deposited via Mobile Deposit Deposited at Teller Line
